

DR Protection Box

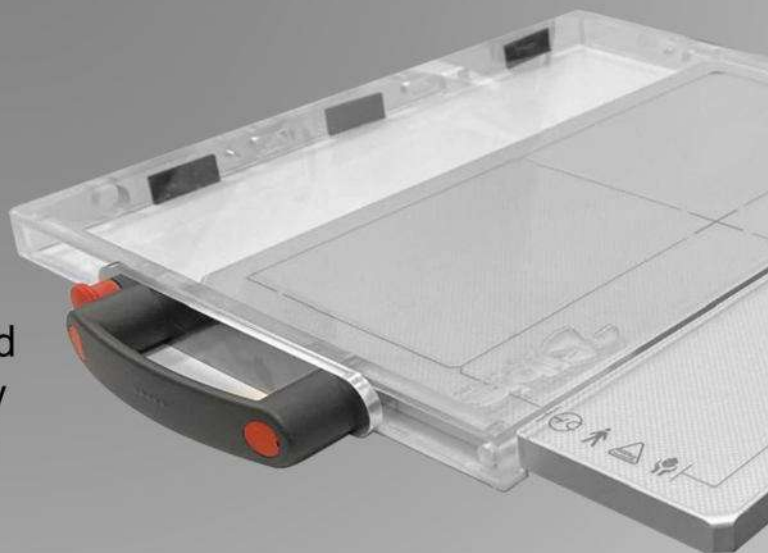

DR Protection Box

Protective case made of technopolymer with a repositionable handle on three sides. Equipped with a safety system to prevent accidental opening.

The DR Protection Box provides advanced protection for the panel, combining safety with practicality. Thanks to its ergonomic handle, it ensures superior handling, making every operation easier and more efficient.

Available for the following panels:
25x30cm, 36x43cm and 43x43cm.
